Professional Summary

Final-year B.Tech Computer Science and Engineering (Artificial Intelligence) student with hands-on experience building AI/ML, Generative AI, and full-stack applications using Python, FastAPI, the MERN stack, REST APIs, and LLM APIs. Completed an AI/ML virtual internship and built three end-to-end projects across healthcare, career tools, and developer productivity. Hackathon participant who collaborates through Git/GitHub, with cloud and AI certifications from AWS, Microsoft, Oracle, SAP, and Google Cloud.

Technical Skills

Languages: Python, Java, JavaScript, TypeScript, SQL, HTML, CSS
AI/ML & GenAI: Machine Learning, Deep Learning, NLP, Computer Vision, LLMs, Generative AI, Prompt Engineering, Scikit-learn, TensorFlow, PyTorch
Web Development: React.js, Next.js, Node.js, Express.js, FastAPI, MERN, REST APIs, GraphQL, WebSockets, ReactFlow, Zustand
Databases: MongoDB, PostgreSQL, Redis
Cloud & Tools: Microsoft Azure, AWS, Docker, Linux, Git, GitHub, CI/CD

Experience

Artificial Intelligence & Machine Learning Intern | **SmartBridge Educational Services Pvt. Ltd.** **Aug 2026**
Short-Term Virtual Internship Program | 2 months (120 hours) | In collaboration with Andhra Pradesh State Council of Higher Education
- Completed a structured internship focused on Artificial Intelligence and Machine Learning; Certificate of Completion issued.
- Gained hands-on exposure to AI/ML concepts and practical workflows through the program.

Projects

MediQueue AI – Hospital Management System **Live | GitHub**
MERN, Microservices, WebSockets, GraphQL, Redis, Azure, Prometheus *Feb – Apr 2026*
- Built a microservices hospital queue platform (MERN, REST APIs, GraphQL) with real-time updates via WebSockets and Redis.
- Developed patient-triage ML models and deployed them through CI/CD pipelines on Microsoft Azure.
- Added Prometheus monitoring and GraphQL dashboards to track service health and performance.

CareerIQ – Career Intelligence Platform **Live | GitHub**
MERN, REST APIs, Gemini API, Prompt Engineering, Zustand *Mar – May 2026*
- Built a Gemini API resume analyzer using prompt engineering to extract structured data and identify skill gaps vs. job descriptions.
- Designed pipelines generating role-specific interview questions; built the React/Zustand frontend with REST API integration.

DevForge AI – Developer Productivity Toolkit **Live | GitHub**
React.js, ReactFlow, Gemini API, Zustand, Prometheus *Aug – Nov 2025*
- Built an interactive ReactFlow architecture-planning workspace with Zustand state management and Prometheus render monitoring.
- Integrated Gemini API middleware to turn node diagrams into starter code; A/B tested prompt strategies to improve output quality.

Education

G. Pullaiah College of Engineering & Technology **Kurnool**
B.Tech in Computer Science and Engineering (AI) *Aug 2023 – May 2027*

Certifications

Cloud: AWS Certified Machine Learning Engineer – Associate
Cloud: AWS Certified Cloud Practitioner
AI: Oracle Cloud Infrastructure (OCI) Generative AI Professional
Backend: SAP Certified – Back-End Developer – ABAP Cloud
Data: Microsoft Certified: SQL AI Developer Associate
Data: Microsoft Certified: Fabric Analytics Engineer Associate
AI Agents: 5-Day AI Agents: Intensive Vibe Coding Course – Kaggle
Programming: Python Skill Up Course – GeeksforGeeks

Achievements

Open Source: Certificate of Appreciation (Elite Coders) – qualified Pre-Assessment Round, Open Source Hackathon 2026 (ECSoC)
Cloud & AI: Completed Google Cloud Gen AI Academy 2.0 (Hack2Skill) – hands-on with Vertex AI, Gemini APIs, BigQuery, GKE
ML: Completed Machine Learning Mastery bootcamp (DevTown & GDG On Campus CSMU) – predictive modeling and ML projects
